$R_{DS(ON)}$	6mΩ
$I_D$	75A

## Description

AP85L02 used advanced design and process to achieve low gate charge ,lower on-resistance and fast switching performance.

The TO-252 package is universally preferred for all commercial-industrial surface mount applications and suited for low voltage applications such as DC/DC converters. The through-hole version (AP85L02J-A) is available for low-profile applications.
