## Description

Advanced Power MOSFETs from APEC provide the designer with the best combination of fast switching, ruggedized device design, low on-resistance and cost-effectiveness.

The TO-220CFM isolation package is widely preferred for commercial-industrial through hole applications.

## Absolute Maximum Ratings

| Symbol                    | Parameter                                | Rating     | Units |
