

## ASR02

### Features

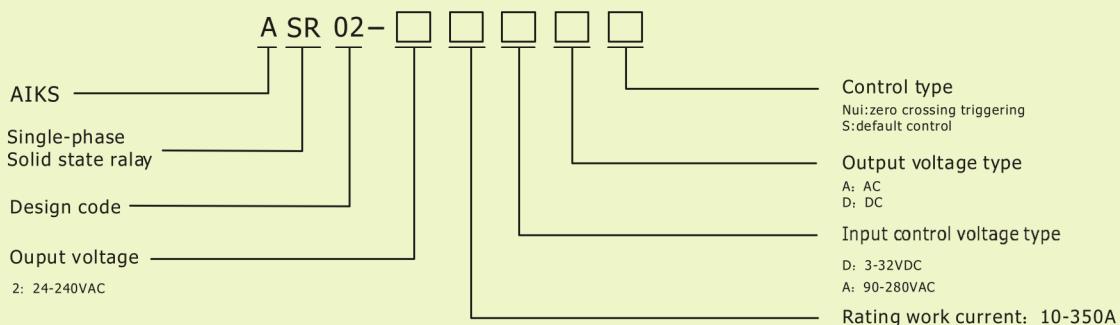

- Max 40-100A switching available
- Two phase AC or DC output, AC or DC input
- Built-in RC resistor, Low on-resistance
- Dielectric strength min: 2500VAC
- With LED, confirm the action

### ► TECHNICAL PARAMETRIC

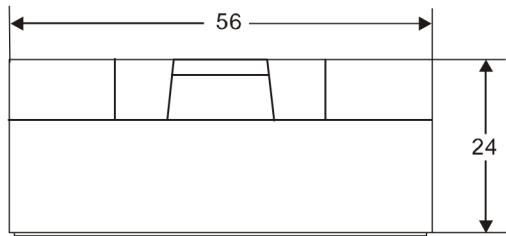

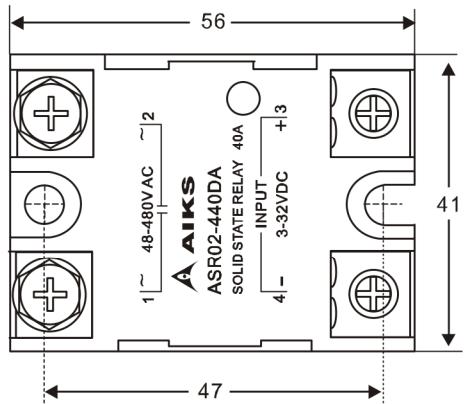

|                                       |                                    |
|---------------------------------------|------------------------------------|
| Rating work current                   | 40A、50A、60A、80A、100A               |
| Breaths condition the control voltage | ≤4mA                               |
| Input control voltage                 | DC:3~32V AC:90~280V                |
| Work voltage                          | AC:24-240V、38-380V、48-480V、80-750V |
| Active status instruction             | LED                                |
| Guarantees breakover                  | 3VDC 90VAC                         |
| Guarantees shutdown voltage           | 1VDC 20VAC                         |
| Ambient temperature                   | -30℃~80℃                           |
| Passes condition the pressuredrop     | ≤1.8VAC                            |
| Control type                          | Zero crossing triggering           |
| Make-and-break time                   | DC: ≤10uS AC: ≤30uS                |
| Arequency range                       | 50/60Hz                            |
| Control current                       | 5~20mA 2~18mA                      |
| Dielectric Strength                   | AC2500V 1min                       |
| Terminal structure                    | Bolt post                          |
