

# BAT42W, BAT43W

## Schottky Diodes

### SOD-123

Dimensions in inches and (millimeters)

### FEATURES

- ◆ For general purpose applications
- ◆ These diodes feature very low turn-on voltage and fast switching. These devices are protected by a PN junction guard ring against excessive voltage, such as electrostatic discharges.
- ◆ These diodes are also available in the DO-35 case with the type designations BAT42 to BAT43 and in the MiniMELF case with type designations LL42 to LL43.
