Notes:

- 1.JEDEC document JEP155 states that 500-v HBM allows safe manufacturing with a standard ESD control process.Manufacturing with less than 500-v HBM is possible with the necessary precautions.
2. JEDEC document JEP157 states that 250-v CDM allows safe manufacturing with a standard ESD control process.Manufacturing with less than 250-v CDM is possible with the necessary precautions.
