

Description

Standard gate triggering SCR is fully isolated package suitable for the application where requiring high bidirectional blocking voltage capability and also suitable for over voltage protection, motor control circuit in power tool, inrush current limit circuit and heating control system.

Simplified outline

TO-220AB

Features

- Blocking voltage to 800 V
- On-state RMS current to 12 A
- Ultra low gate trigger current

Applications

- Motor control
- Industrial and domestic lighting
- Heating
- Static switching

Symbol

Pin	Description
1	cathode
2	anode
