

NPN Silicon High Voltage Switching Transistors

BUX 86
BUX 87

SIEMENS AKTIENGESELLSCHAFT

BUX 86 and BUX 87 are NPN silicon epibase power switching transistors in TO 126 plastic package (12 A 3 DIN 41 869). They are outstanding for their short switching times and high dielectric strength and are particularly suitable for use in switching power supplies of TV sets. The collector is electrically connected to the metallic mounting area.
