# Detach Connectors CAM-B67, B68

Connectors

## **FEATURES**

- Due to these connectors, the front panel can be removed or mounted for preventing the car audio from being stolen. They are also suitable for connecting the circuit between various electronic units.
- 2. These connectors can absorb a fitting play by setting the fitting port size.
- Since each socket connector can directly be mounted to the main PCB of the set, VA of the set is possible.
  - A metallic cover is mounted for preventing static electricity.
