### Applications

- Battery Operated DC Motor Inverter MOSFET

### Features and Benefits

#### Features

|                                                              |
|--------------------------------------------------------------|
| Low $R_{DS(on)}$ (<3.8m $\Omega$ )                           |
| Low Thermal Resistance to PCB (<3.4°C/W)                     |
| 100% $R_g$ tested                                            |
| Low Profile (<1.0mm)                                         |
| Industry-Standard Pinout                                     |
| Compatible with Existing Surface Mount Techniques            |
| RoHS Compliant Containing no Lead, no Bromide and no Halogen |
| MSL1, Industrial Qualification                               |

#### Benefits

|                                   |
|-----------------------------------|
| Lower Conduction Losses           |
| Enable better thermal dissipation |
| Increased Reliability             |
| Increased Power Density           |
| Multi-Vendor Compatibility        |
| Easier Manufacturing              |
| Environmentally Friendlier        |
| Increased Reliability             |

| Orderable part number | Package Type       | Standard Pack |          | Note            |
|-----------------------|--------------------|---------------|----------|-----------------|
|                       |                    | Form          | Quantity |                 |
| IRFHM830TRPBF         | PQFN 3.3mm x 3.3mm | Tape and Reel | 4000     |                 |
| IRFHM830TR2PBF        | PQFN 3.3mm x 3.3mm | Tape and Reel | 400      | EOL notice #259 |

**Qualification Information<sup>†</sup>**

|                            |                                                                           |                                                |
|----------------------------|---------------------------------------------------------------------------|------------------------------------------------|
| Qualification level        | Industrial <sup>††</sup><br>(per JEDEC JESD47F <sup>†††</sup> guidelines) |                                                |
| Moisture Sensitivity Level | PQFN 3.3mm x 3.3mm                                                        | MSL1<br>(per JEDEC J-STD-020D <sup>†††</sup> ) |
| RoHS Compliant             | Yes                                                                       |                                                |

<sup>†</sup> Qualification standards can be found at International Rectifier's web site

<http://www.irf.com/product-info/reliability>

<sup>††</sup> Higher qualification ratings may be available should the user have such requirements.  
Please contact your International Rectifier sales representative for further information:

<http://www.irf.com/whoto-call/salesrep/>

<sup>†††</sup> Applicable version of JEDEC standard at the time of product release.

**Notes:**

- ① Repetitive rating; pulse width limited by max. junction temperature.
- ② Starting  $T_J = 25^\circ\text{C}$ ,  $L = 0.41\text{mH}$ ,  $R_G = 25\Omega$ ,  $I_{AS} = 20\text{A}$ .
- ③ Pulse width  $\leq 400\mu\text{s}$ ; duty cycle  $\leq 2\%$ .
- ④  $R_\theta$  is measured at  $T_J$  of approximately  $90^\circ\text{C}$ .
- ⑤ When mounted on 1 inch square 2 oz copper pad on 1.5x1.5 in. board of FR-4 material.
- ⑥ Calculated continuous current based on maximum allowable junction temperature. Package is limited to 40A by production test capability.
