

KTC2236

Silicon NPN Transistor

(von unten/
bottom view)

Ucb: 30V

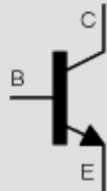

Ic: 2A

β (Ic/Ib): -

N: 1W

F: 120MHz

Tmax: -

the KTC2236 is a silicon NPN transistor, Ucb = 30V, Ic = 2A, applications: audio frequency driver and output stage, case TO-92 long body

Source: Jaeger electronic catalog 1999

Advanced Information for: KTC2236

OEM

Korea Electronic Co. Ltd, Korea (KEC)

pkg details:

TO-92L
