

LDMT-90-11

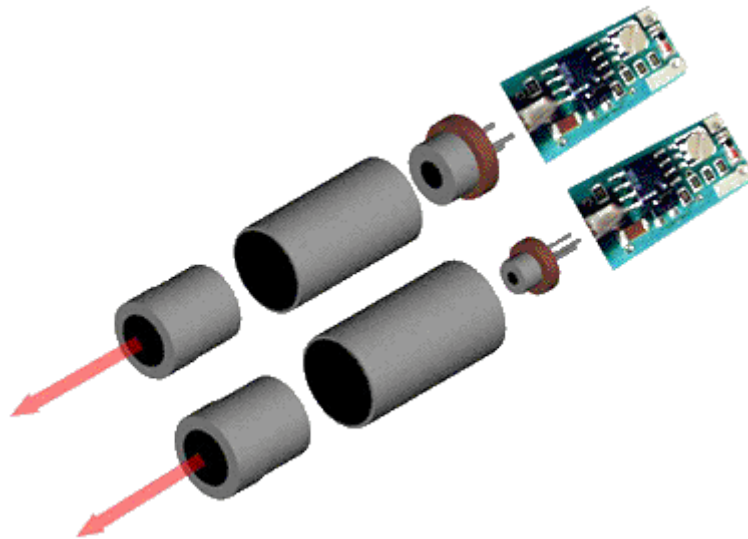

TECHNICAL DATA

Mounting Tube

Mounting tube LDMT-90-11 is designed to offer you the possibility to easily assemble your own kind of laser module kit. It's compatible with all 9.0 mm packaged laser diodes and optics with M9x0.5 thread as Roithner Lasertechnik offers them.

Specifications

| Item | Value | Unit |
|----------------------|--------------|------|
| Dimension | Ø11 x 18 mm | mm |
| Inside Thread | M9 x 0.5 | mm |
| Holding Fixture (LD) | 9.0 | mm |
| Material | AlCuBiPb F37 | |
| Anodisation | black | |

To get the LD mounted, you need to glue it into the holding fixture. The inside thread offers you the option to focus your beam by adjusting the distance between LD and collimator.
