

MTD2006F

Dual full-bridge for a bipolar motor

Features

- Dual full-bridge for a bipolar stepper motor
- Constant current control (fixed frequency PWM control)
- Current decay selection (correspond to microstepping drive)
- Noise cancellation function (no need external RC)
- Integrated flywheel and flyback diodes
- Cross conduction protection
- Overheating alarm function
- Surface mount type package with heatsink (HSOP28)

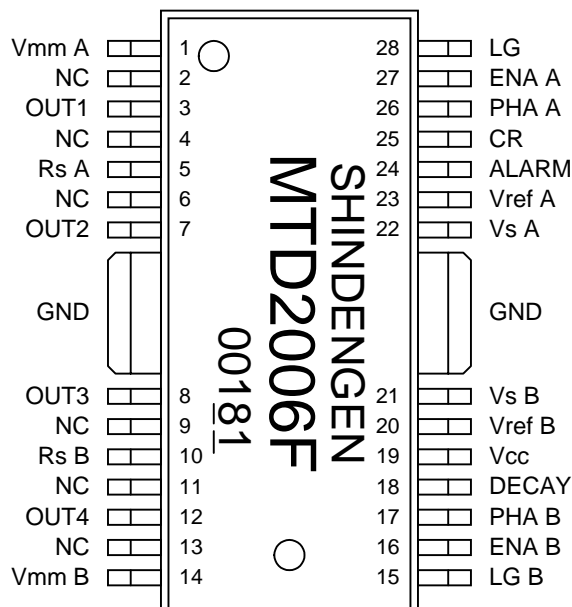

Absolute maximum ratings / Ta=25°C

Parameter	Symbol	Rating	Unit

■ This device fully meets the reliability and quality control standards described in our company's catalog. If this device is to be used in a situation where its misuse or failure might cause serious injury or death, consult with our company. Reliability and quality control standards for this device are considered adequate when it is used with the following type of end equipment.

Standard applications

Computers, OA and other office equipment, Communication terminal, Measurement machine tools, Audio-visual, Game and other amusements, Household electric appliances, Personal items, Industrial robot, etc.

Special applications where the device may or not be suitable include the following.

Transportation and conveyance (cargo loading) equipment, Primary communications equipment, Traffic signal control equipment, Fire and burglary alarms, Various safety devices, Medical equipment, etc.

Other special applications where the device reliability is not considered high enough include the following.

Atomic power control systems, Aviation equipment, Aerospace equipment, Submarine relay equipment, Life support equipment, etc.

■ Our company makes a constant effort to improve the quality and reliability of our products. However, it is the customer's responsibility to provide safety. Take the appropriate steps to prevent personal injury, fire, and damage by providing redundancy equipment, fire containment equipment, and devices to protect personnel and equipment from operational mistakes.

If you want to any more detail information and design application, please contact sales office regarding any questions you may have.
