1.9W Class-D Audio Amplifier with Integrated Boost Converter and Battery Tracking AGC

PAM8905

Description

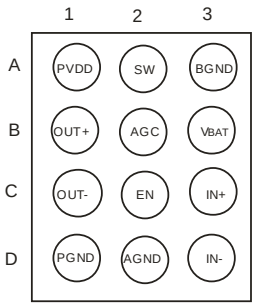
The PAM8905 is a high efficiency Class-D audio power amplifier with an integrated boost converter. It drives up to 1.9W (1% THD+N) into an 8Ω speaker. With 85% typical efficiency, the PAM8905 helps extend battery life when playing audio.

The built-in boost converter generates the voltage rail for the output stage. This provides a louder audio output than a stand-alone amplifier connected directly to the battery. It also maintains a consistent loudness, regardless of battery voltage.

The PAM8905 features battery tracking AGC function which adjusts the Class-D gain to limit battery current at lower battery voltage.

PAM8905 features DC input protection and all outputs are fully protected against output-to-output shorts. The PAM8905 is available in U-WLB1520-12 package.

Pin Assignments



(TOP VIEW)

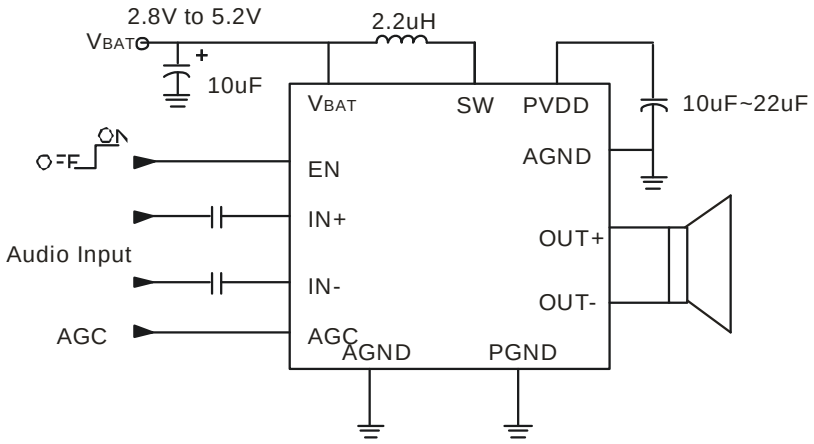
Features

- Built-In Battery Tracking Automatic Gain Control (AGC)
- High Efficiency Integrated Boost Converter Over 85%
- 1.9W into an 8Ω Load from a 3.6V Supply
- Operates from 2.8V to 5.2V
- Efficient Class-D Prolongs Battery Life
- Minimized ON/OFF Pop Noise
- Superior Low Noise
- High PSRR
- DC Input Protection
- Auto-Recovery Short-Circuit Protection
- Thermal Shutdown
- Available in U-WLB1520-12 Package

Applications

- Cell Phones
- PDA
- GPS
- Portable Electronics
- Speakers

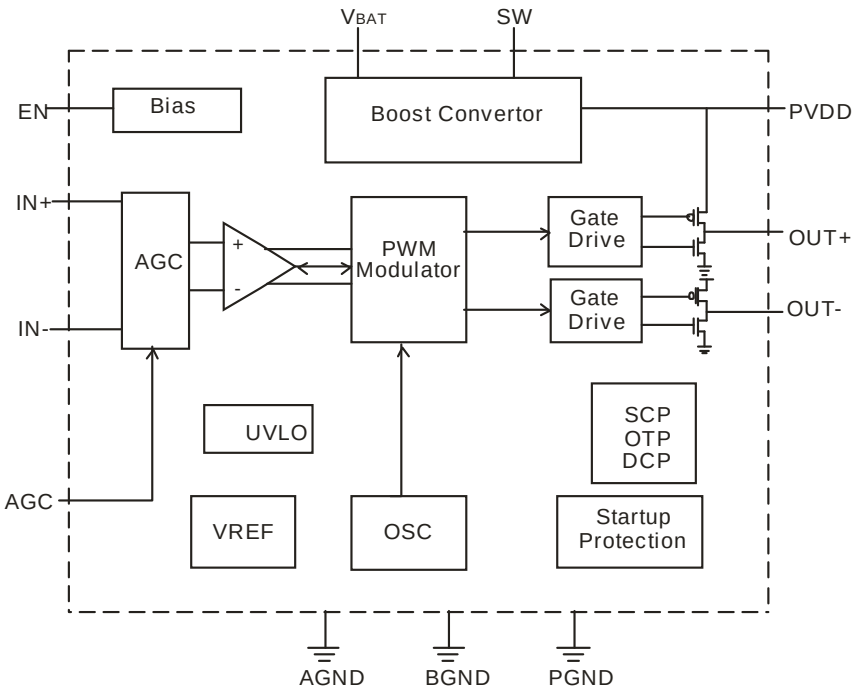
Typical Applications Circuit



Pin Descriptions

Pin Name	Pin Number	Description
PVDD	A1	Boost Converter Output and Class D Amplifier Power Supply
OUT+	B1	Amplifier Positive Audio Output
OUT-	C1	Amplifier Negative Audio Output
PGND	D1	Class-D Power Ground
SW	A2	Boost Convertor Switching
AGC	B2	AGC Inflection Point Select Connect to VBAT, GND or Float. Voltage at AGC pin is only read at device power-up. A power cycle is required to change inflection points.
EN	C2	Device Enable Set to logic high to enable
AGND	D2	Analog Ground
BGND	A3	Boost Converter Power Ground
VBAT	B3	Supply Voltage
IN+	C3	Positive Audio Input
IN-	D3	Negative Audio Input

Block Diagram



Absolute Maximum Ratings (@T_A = +25°C, unless otherwise specified.)

		VALUE	UNIT
VBAT	Supply voltage	–0.3 to 6.0	V
V_I	Input voltage, EN, IN+, IN–, AGC	–0.3 to VBAT + 0.3	V
T_A	Operating free-air temperature range	–40 to 85	°C
T_J	Operating junction temperature range	–40 to 150	°C
T_{stg}	Storage temperature range	–65 to 150	°C

Recommended Operating Conditions (@T_A = +25°C, unless otherwise specified.)

			MIN	MAX	UNIT
VBAT	Supply voltage		2.8	5.2	V
V_{IH}	High-level input voltage	EN	1.3	VBAT	V
V_{IL}	Low-level input voltage	EN	GND	0.6	V
T_A	Operating free-air temperature		–40	85	°C

LIFE SUPPORT

Diodes Incorporated products are specifically not authorized for use as critical components in life support devices or systems without the express written approval of the Chief Executive Officer of Diodes Incorporated. As used herein:

A. Life support devices or systems are devices or systems which:

1. are intended to implant into the body, or

2. support or sustain life and whose failure to perform when properly used in accordance with instructions for use provided in the labeling can be reasonably expected to result in significant injury to the user.

B. A critical component is any component in a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or to affect its safety or effectiveness.

Customers represent that they have all necessary expertise in the safety and regulatory ramifications of their life support devices or systems, and acknowledge and agree that they are solely responsible for all legal, regulatory and safety-related requirements concerning their products and any use of Diodes Incorporated products in such safety-critical, life support devices or systems, notwithstanding any devices- or systems-related information or support that may be provided by Diodes Incorporated. Further, Customers must fully indemnify Diodes Incorporated and its representatives against any damages arising out of the use of Diodes Incorporated products in such safety-critical, life support devices or systems.
