

PCB-LQFP64

QFP64 / LQFP64 / TQFP64 SMD Adapter Board (0.5mm pitch)

Description

The PCB-LQFP64 adapter module is designed to convert integrated circuits (IC) in 64-pin QFP/LQFP/TQFP packages to a top mounted module. This adapter was designed for engineers, students and hobbyists who are looking for a quick way of connect surface mount components to the breadboard.

Features

- SMD/SMT QFP64/LQFP64/TQFP64 packages with 10x10mm body size and 0.5mm pitch
- Double rows standard 2.54mm pitch header pins (drill 0.8mm)
- Small and compact in size 38x38mm
- Board thickness 1.2mm
- White marking print
- High quality FR4 material
- Copper final thickness 35µm
- Green solder-stop on both sides
- HAL lead-free surface
- Electrical test
