RACM30-ER/W

30 Watt Wired Round Shape Single Output

Description

The RACM30-ER/W series comprises reliable and highly efficient power conversion modules in a potted IP68 certified, waterproof encapsulation to fit into flush mount wall installations. All versions are covered by multiple certifications for household, medical and ITE safety standards as well. With a certified operation up to 5000m altitude and an ambient temperature range from -20°C up to +70°C, the compact modules are designed to power sanitary, healthcare, smart building, automation, and household applications. Since these modules do not require any external components, they are ready to connect and forget.
