

**RF-3000**  
**C-Band LNA**  
**3.400 – 4.800 GHz**

### Description

The RF-3000 offers premium performance and reliability in the most versatile package available for a C-Band LNA. The latest technology in GaAs HEMT devices produces the lowest possible noise temperatures in an uncooled LNA. System performance is enhanced by outstanding gain stability and gain flatness. In addition, the RF-3000 is backed by a 36-month warranty and by more than 30 years experience in the design of high performance communications amplifiers.

The performance of the RF-3000 is matched by a full range of features chosen with the communication system designer in mind. From the compact weatherproof housing to the standard combination of RF cable and circular connector DC input, the RF-3000 is ready for integration into your system.

### Features

- Noise Temperatures as low as 30K
- All C-Band Frequencies Available
- Outstanding Gain Flatness and Gain Stability
- 36-Month Warranty
- Compact Design - No Add-On Modules for AC Power or Fault Alarm Options
- Input and Output Isolators
- +12 to +28 VDC Operation
- Cable Power Standard in Addition to a DC Connector
- Waterproof, Painted Aluminum Housing
- Voltage Surge Protection
- Reverse Voltage Protection
- Pressurizable Feed

### Options

- Universal AC Power Supply
- Fault Alarm (Current Sensing)

### System Configurations

- 1:1 Redundant LNA System
- 1:2 Redundant LNA System
- Dual 1:1 Redundant LNA System
