

RNB4580 Series

Dual Low Noise Operational Amplifier

REA03D0004-0200

Rev.2.00

Dec 24, 2008

Description

RNB4580 is dual bipolar low noise amplifiers designed for audio systems to improve tone control, audio pre-amplifier and industrial measurement tools. It also suitable for head phone amplifier at higher output current.

This product features internal frequency compensation, low noise, low distortion, high gain and high bandwidth. It also can operate under dual power supply voltage up to ± 18 V or single power supply up to 36 V.

The IC can be applied for the handy type set operational amplifier of general purpose in application of low voltage single supply type, which is properly biased of the input low voltage source.

Features

- Wide bandwidth: 15 MHz
- High speed: 7 V/ μ s
- Low input noise voltage: 0.7 μ Vrms
- Large DC voltage gain: 110 dB
- Operating voltage: ± 2 V to ± 18 V
- Package outline available in Pb free lead frame:
 - DP-8
 - SOP-8 (JEITA)
 - SOP-8 (JEDEC)

Applications

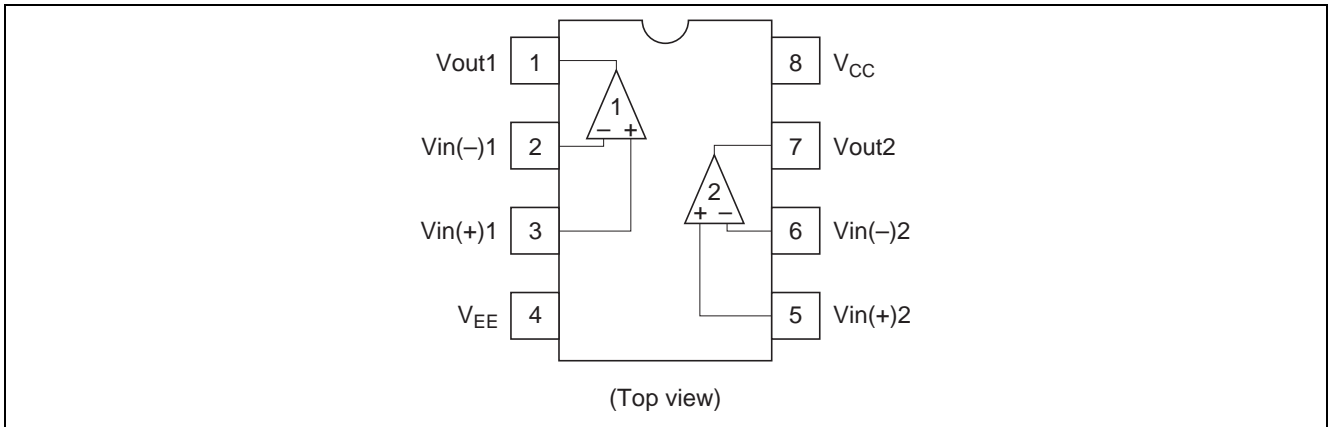

- Audio AC-3 decoder system
- Audio amplifier
- Pre-amp
- Active filter

Ordering Information

| Part No. | Application | Package Code (Package Name) | Packing Abbreviation (Quantity) |
|-----------|----------------|--------------------------------|------------------------------------|
| RNB4580 | Commercial use | PRDP0008AF-B (DP-8FV) | — (50 pcs/stick 1,000 pcs/box) |
| RNB4580F | | PRSP0008DE-B (FP-8DGV) | EL (2,500 pcs/reel) |
| RNB4580RP | | PRSP0008DD-C (FP-8DCV) | EL (2,500 pcs/reel) |

Note: This product is designed for consumer use and not for automotive and industry.

Pin Arrangement

Circuit Schematic (1/2)

Absolute Maximum Ratings

(Ta = 25°C)

| Item | Symbol | Ratings | | | Unit |
|----------------------------|------------------------|-------------|-------------|-------------|------|
| | | RNB4580 | RNB4580F | RNB4580RP | |
| Supply Voltage | V _{CC} | 18 | 18 | 18 | V |
| | V _{EE} | -18 | -18 | -18 | V |
| Differential input voltage | V _{IN} (diff) | ±30 | ±30 | ±30 | V |
| Common mode input voltage | V _{CM} *3 | ±15 | ±15 | ±15 | V |
| Power dissipation | P _T | 670 *1 | 385 *2 | 385 *2 | mW |
| Operating temperature | Topr | -40 to +85 | -40 to +85 | -40 to +85 | °C |
| Storage temperature | Tstg | -55 to +125 | -55 to +125 | -55 to +125 | °C |

Notes: 1. This is the allowable value up to Ta = 45°C. Derate by 8.3 mW/°C above that temperature.

2. These are the allowable values up to Ta = 60°C mounting on 40mm × 40mm × 1.6mm (t) 10% wiring density glass epoxy board. Derate by 5.9 mW/°C above that temperature.

3. If the supply voltage is less than ±15 V, input voltage should be less than supply voltage.

Electrical Characteristics

(Ta = 25°C, V_{CC} = +15 V, V_{EE} = -15 V, unless otherwise specified)

| Item | Symbol | Min | Typ | Max | Unit | Test Conditions |
|---------------------------------|----------------------|-----|--------|-----|-------------------|--|
| Input offset voltage | V _{IO} | — | 0.5 | 3 | mV | R _S ≤ 10 kΩ |
| Input offset current | I _{IO} | — | 5 | 100 | nA | |
| Input bias current | I _{IB} | — | 150 | 500 | nA | |
| Supply current | I _{CC} | — | 4 | 7 | mA | |
| Power supply rejection ratio | PSRR | 80 | 110 | — | dB | R _S ≤ 10 kΩ |
| Voltage gain | A _V | 90 | 110 | — | dB | R _L ≥ 2 kΩ, V _O = ±10 V |
| Common mode rejection ratio | CMR | 80 | 110 | — | dB | R _S ≤ 10 kΩ, V _{CM} = 0 V to V _{CC} = -1.5 V |
| Output sink current | I _{OSINK} | — | 80 | — | mA | V _{IN(-)} = 1 V, V _{IN(+)} = 0 V, V _O = 2 V |
| Output source current | I _{OSOURCE} | — | 45 | — | mA | V _{IN(-)} = 0 V, V _{IN(+)} = 1 V, V _O = 2 V |
| Input common mode voltage range | V _{ICM} | ±12 | ±13.5 | — | V | |
| Slew rate | SR | — | 7 | — | V/μs | |
| Equivalent input noise voltage | V _{NI} | — | 0.7 | — | μV _{rms} | RIAA, R _S = 2.2 kΩ, 30 kHz LPF |
| Gain bandwidth product | GBP | — | 15 | — | MHz | f = 10 kHz, R _L = 2 kΩ |
| Total harmonic distortion | THD | — | 0.0005 | — | % | A _V = 20 dB, V _O = 5 V, R _L = 2 kΩ, f = 1 kHz |

Table of Graphs

| Electrical Characteristics | | Figure |
|-----------------------------------|---------------------------|---------------|
| Open loop voltage gain | vs. Frequency f | 1 |
| Output swing voltage | vs. Frequency f | 2 |
| Output swing voltage | vs. Load resistance R_L | 3 |
| Equivalent input noise voltage | vs. Frequency f | 4 |
| Input offset voltage | vs. Temperature T_a | 5 |
| Total harmonic distortion | vs. Output Voltage V_o | 6 |
| Maximum output voltage swing | vs. Operating voltage V | 7 |

Notes:

1. This document is provided for reference purposes only so that Renesas customers may select the appropriate Renesas products for their use. Renesas neither makes warranties or representations with respect to the accuracy or completeness of the information contained in this document nor grants any license to any intellectual property rights or any other rights of Renesas or any third party with respect to the information in this document.
2. Renesas shall have no liability for damages or infringement of any intellectual property or other rights arising out of the use of any information in this document, including, but not limited to, product data, diagrams, charts, programs, algorithms, and application circuit examples.
3. You should not use the products or the technology described in this document for the purpose of military applications such as the development of weapons of mass destruction or for the purpose of any other military use. When exporting the products or technology described herein, you should follow the applicable export control laws and regulations, and procedures required by such laws and regulations.
4. All information included in this document such as product data, diagrams, charts, programs, algorithms, and application circuit examples, is current as of the date this document is issued. Such information, however, is subject to change without any prior notice. Before purchasing or using any Renesas products listed in this document, please confirm the latest product information with a Renesas sales office. Also, please pay regular and careful attention to additional and different information to be disclosed by Renesas such as that disclosed through our website. (<http://www.renesas.com>)
5. Renesas has used reasonable care in compiling the information included in this document, but Renesas assumes no liability whatsoever for any damages incurred as a result of errors or omissions in the information included in this document.
6. When using or otherwise relying on the information in this document, you should evaluate the information in light of the total system before deciding about the applicability of such information to the intended application. Renesas makes no representations, warranties or guarantees regarding the suitability of its products for any particular application and specifically disclaims any liability arising out of the application and use of the information in this document or Renesas products.
7. With the exception of products specified by Renesas as suitable for automobile applications, Renesas products are not designed, manufactured or tested for applications or otherwise in systems the failure or malfunction of which may cause a direct threat to human life or create a risk of human injury or which require especially high quality and reliability such as safety systems, or equipment or systems for transportation and traffic, healthcare, combustion control, aerospace and aeronautics, nuclear power, or undersea communication transmission. If you are considering the use of our products for such purposes, please contact a Renesas sales office beforehand. Renesas shall have no liability for damages arising out of the uses set forth above.
8. Notwithstanding the preceding paragraph, you should not use Renesas products for the purposes listed below:
 - (1) artificial life support devices or systems
 - (2) surgical implantations
 - (3) healthcare intervention (e.g., excision, administration of medication, etc.)
 - (4) any other purposes that pose a direct threat to human lifeRenesas shall have no liability for damages arising out of the uses set forth in the above and purchasers who elect to use Renesas products in any of the foregoing applications shall indemnify and hold harmless Renesas Technology Corp., its affiliated companies and their officers, directors, and employees against any and all damages arising out of such applications.
9. You should use the products described herein within the range specified by Renesas, especially with respect to the maximum rating, operating supply voltage range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas shall have no liability for malfunctions or damages arising out of the use of Renesas products beyond such specified ranges.
10. Although Renesas endeavors to improve the quality and reliability of its products, IC products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Please be sure to implement safety measures to guard against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other applicable measures. Among others, since the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or system manufactured by you.
11. In case Renesas products listed in this document are detached from the products to which the Renesas products are attached or affixed, the risk of accident such as swallowing by infants and small children is very high. You should implement safety measures so that Renesas products may not be easily detached from your products. Renesas shall have no liability for damages arising out of such detachment.
12. This document may not be reproduced or duplicated, in any form, in whole or in part, without prior written approval from Renesas.
13. Please contact a Renesas sales office if you have any questions regarding the information contained in this document, Renesas semiconductor products, or if you have any other inquiries.
