

N-Channel Enhancement Mode MOSFET

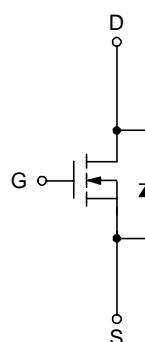

Features

- 150V/80A,
- $R_{DS(ON)} = 16m\Omega$ (max.) @ $V_{GS} = 10V$
- Reliable and Rugged
- Lead Free and Green Devices Available
(RoHS Compliant)

Pin Description

N-Channel MOSFET

Applications

- Synchronous Rectification.
- Power Management in Inverter Systems.

Ordering and Marking Information

SM1F01N  	Package Code F : TO-220 Operating Junction Temperature Range C : -55 to 150 °C Handling Code TU : Tube (50ea/tube) Assembly Material G : Halogen and Lead Free Device
SM1F01N F : 	XXXXX - Lot Code

Note: SINOPOWER lead-free products contain molding compounds/die attach materials and 100% matte tin plate termination finish; which are fully compliant with RoHS. SINOPOWER lead-free products meet or exceed the lead-free requirements of IPC/JEDEC J-STD-020D for MSL classification at lead-free peak reflow temperature. SINOPOWER defines "Green" to mean lead-free (RoHS compliant) and halogen free (Br or Cl does not exceed 900ppm by weight in homogeneous material and total of Br and Cl does not exceed 1500ppm by weight).

SINOPOWER reserves the right to make changes to improve reliability or manufacturability without notice, and advise customers to obtain the latest version of relevant information to verify before placing orders.

Disclaimer

Sinopower Semiconductor, Inc. (hereinafter "Sinopower") has been making great efforts to development high quality and better performance products to satisfy all customers' needs. However, a product may fail to meet customer's expectation or malfunction for various situations.

All information which is shown in the datasheet is based on Sinopower's research and development result, therefore, Sinopower shall reserve the right to adjust the content and monitor the production.

In order to unify the quality and performance, Sinopower has been following JEDEC while defines assembly rule. Notwithstanding all the suppliers basically follow the rule for each product, different processes may cause slightly different results.

The technical information specified herein is intended only to show the typical functions of and examples of application circuits for the products. Sinopower does not grant customers explicitly or implicitly, any license to use or exercise intellectual property or other rights held by Sinopower and other parties. Sinopower shall bear no responsible whatsoever for any dispute arising from the use of such technical information.

The products are not designed or manufactured to be used with any equipment, device or system which requires an extremely high level of reliability, such as the failure or malfunction of which any may result in a direct threat to human life or a risk of human injury. Sinopower shall bear no responsibility in any way for use of any of the products for the above special purposes. If a product is intended to use for any such special purpose, such as vehicle, military, or medical controller relevant applications, please contact Sinopower sales representative before purchasing.
