3.??????? STORAGE & SOLDERING CONDITIONS

?Store with care. Storing the unite in bad condition will cause the reflector sheet and decrease it's adhesive power. Storage The products under condition: temperature (25°C±10°C) and humidity (65%RH±20RH) our recommendation.
?The soldering temperature is 260±5°C and soldering Time should be less than 3 sec, and soldering power should be less than 30W.
?The soldering point should for way more 1.6mm from body.
