μPA2464T1Q

MOS FIELD EFFECT TRANSISTOR

R07DS0189EJ0100
Rev.1.00
Dec 06, 2010

Description

The μPA2464T1Q is a switching device, which can be driven directly by a 2.5 V power source.

The μPA2464T1Q features a low on-state resistance and excellent switching characteristics, and is suitable for applications such as power switch of portable machine and so on.

Features

- 2.5 V drive available
- Low on-state resistance
  - $R_{DS(on)1}$ = 26.0 mΩ MAX. (V_{GS} = 4.5 V, I_D = 3.0 A)
  - $R_{DS(on)2}$ = 27.0 mΩ MAX. (V_{GS} = 4.0 V, I_D = 3.0 A)
  - $R_{DS(on)3}$ = 30.0 mΩ MAX. (V_{GS} = 3.1 V, I_D = 3.0 A)
  - $R_{DS(on)4}$ = 38.0 mΩ MAX. (V_{GS} = 2.5 V, I_D = 3.0 A)
- Built-in G-S protection diode against ESD

Ordering Information

Part No.	LEAD PLATING	PACKING	Package
μPA2464T1Q-E1-AX *1	Ni/Pd/Au	8 mm embossed taping 3000 p/reel	8-pin HUSON (2720)

Note: *1. Pb-free (This product does not contain Pb in the external electrode and other parts.)

Absolute Maximum Ratings (T_A = 25°C)

Item	Symbol	N-CHANNEL	Unit
Drain to Source Voltage (V_{GS} = 0 V)	V_{DSS}	30	V
Gate to Source Voltage (V_{DS} = 0 V)	V_{GSS}	±12	V
Drain Current (DC) *1	$I_{D(DC)}$	±6	A
Drain Current (pulse) *2	$I_{D(pulse)}$	±45	A
Total Power Dissipation (2 unit) *1	P_{T1}	1.0	W
Channel Temperature	T_{ch}	150	°C
Storage Temperature	T_{stg}	−55 to +150	°C

Notes: *1. Mounted on a glass epoxy board of 25.4 mm x 25.4 mm x 0.8 mmt
*2. PW ≤ 10 μs, Duty Cycle ≤ 1%

Electrical Characteristics (T_A = 25°C)

Item	Symbol	Min	Typ	Max	Unit	Test Conditions
Zero Gate Voltage Drain Current	I_{DSS}			1	μA	V_{DS} = 30 V, V_{GS} = 0 V
Gate Leakage Current	I_{GSS}			±10	μA	V_{GS} = ±12 V, V_{DS} = 0 V
Gate to Source Cut-off Voltage	$V_{GS(off)}$	0.5	1	1.5	V	V_{DS} = 10 V, I_D = 1 mA
Forward Transfer Admittance *1	$\|y_{fs}\|$	2.5			S	V_{DS} = 10 V, I_D = 3.0 A
Drain to Source On-state Resistance *1	$R_{DS(on)1}$	15	20	26	mΩ	V_{GS} = 4.5 V, I_D = 3.0 A
	$R_{DS(on)2}$	16	20.5	27	mΩ	V_{GS} = 4.0 V, I_D = 3.0 A
	$R_{DS(on)3}$	17	22	30	mΩ	V_{GS} = 3.1 V, I_D = 3.0 A
	$R_{DS(on)4}$	19	26	38	mΩ	V_{GS} = 2.5 V, I_D = 3.0 A
Input Capacitance	C_{iss}		700		pF	V_{DS} = 10 V,
Output Capacitance	C_{oss}		77		pF	V_{GS} = 0 V,
Reverse Transfer Capacitance	C_{rss}		48		pF	f = 1 MHz
Turn-on Delay Time	$t_{d(on)}$		3		μs	V_{DD} = 15 V, I_D = 3.0 A,
Rise Time	t_r		5		μs	V_{GS} = 4 V,
Turn-off Delay Time	$t_{d(off)}$		14		μs	R_G = 6 Ω
Fall Time	t_f		9		μs	
Total Gate Charge	Q_G		7		nC	V_{DD} = 24 V,
Gate to Source Charge	Q_{GS}		1.3		nC	V_{GS} = 4 V,
Gate to Drain Charge	Q_{GD}		2.5		nC	I_D = 6.0 A
Body Diode Forward Voltage *1	$V_{F(S-D)}$		0.83		V	I_F = 6.0 A, V_{GS} = 0 V

Note: *1. Pulsed

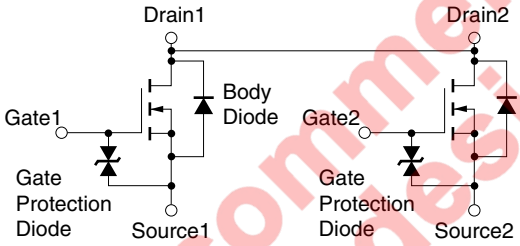
Lead surface metal is Gold.
Hatching area is Cu.

Equivalent Circuit



Remark The diode connected between the gate and source of the transistor serves as a protector against ESD. When this device actually used, an additional protection circuit is externally required if a voltage exceeding the rated voltage may be applied to this device.

<Notes for using this device safely>

When you use this device, in order to prevent a customer's hazard and damage, use it with understanding the following contents. If used exceeding recommended conditions, there is a possibility of causing failure of the device and characteristic degradation.

1. When you mount the device on a substrate, carry out within our recommended soldering conditions of infrared reflow. If mounted exceeding the conditions, the characteristic of a device may be degraded and it may result in failure.
2. When you wash the device mounted the substrate, carry out within our recommended conditions. If washed exceeding the conditions, the characteristic of a device may be degraded and it may result in failure.
3. When you use ultrasonic wave to substrate after the device mounting, prevent from touching a resonance generator directly. If it touches, the characteristic of a device may be degraded and it may result in failure.
4. Please refer to **Figure 1** as an example of the land pattern. Optimize the land pattern in consideration of density, appearance of solder fillets, common difference, etc in an actual design.

Figure 1. Example of the land pattern

Notice

1. All information included in this document is current as of the date this document is issued. Such information, however, is subject to change without any prior notice. Before purchasing or using any Renesas Electronics products listed herein, please confirm the latest product information with a Renesas Electronics sales office. Also, please pay regular and careful attention to additional and different information to be disclosed by Renesas Electronics such as that disclosed through our website.
2. Renesas Electronics does not assume any liability for infringement of patents, copyrights, or other intellectual property rights of third parties by or arising from the use of Renesas Electronics products or technical information described in this document. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
3. You should not alter, modify, copy, or otherwise misappropriate any Renesas Electronics product, whether in whole or in part.
4. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation of these circuits, software, and information in the design of your equipment. Renesas Electronics assumes no responsibility for any losses incurred by you or third parties arising from the use of these circuits, software, or information.
5. When exporting the products or technology described in this document, you should comply with the applicable export control laws and regulations and follow the procedures required by such laws and regulations. You should not use Renesas Electronics products or the technology described in this document for any purpose relating to military applications or use by the military, including but not limited to the development of weapons of mass destruction. Renesas Electronics products and technology may not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations.
6. Renesas Electronics has used reasonable care in preparing the information included in this document, but Renesas Electronics does not warrant that such information is error free. Renesas Electronics assumes no liability whatsoever for any damages incurred by you resulting from errors in or omissions from the information included herein.
7. Renesas Electronics products are classified according to the following three quality grades: "Standard", "High Quality", and "Specific". The recommended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below. You must check the quality grade of each Renesas Electronics product before using it in a particular application. You may not use any Renesas Electronics product for any application categorized as "Specific" without the prior written consent of Renesas Electronics. Further, you may not use any Renesas Electronics product for any application for which it is not intended without the prior written consent of Renesas Electronics. Renesas Electronics shall not be in any way liable for any damages or losses incurred by you or third parties arising from the use of any Renesas Electronics product for an application categorized as "Specific" or for which the product is not intended where you have failed to obtain the prior written consent of Renesas Electronics. The quality grade of each Renesas Electronics product is "Standard" unless otherwise expressly specified in a Renesas Electronics data sheets or data books, etc.
   - "Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; and industrial robots.
   - "High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control systems; anti-disaster systems; anti-crime systems; safety equipment; and medical equipment not specifically designed for life support.
   - "Specific": Aircraft; aerospace equipment; submersible repeaters; nuclear reactor control systems; medical equipment or systems for life support (e.g. artificial life support devices or systems), surgical implantations, or healthcare intervention (e.g. excision, etc.), and any other applications or purposes that pose a direct threat to human life.
8. You should use the Renesas Electronics products described in this document within the range specified by Renesas Electronics, especially with respect to the maximum rating, operating supply voltage range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas Electronics shall have no liability for malfunctions or damages arising out of the use of Renesas Electronics products beyond such specified ranges.
9. Although Renesas Electronics endeavors to improve the quality and reliability of its products, semiconductor products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Further, Renesas Electronics products are not subject to radiation resistance design. Please be sure to implement safety measures to guard them against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas Electronics product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or system manufactured by you.
10. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. Please use Renesas Electronics products in compliance with all applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive. Renesas Electronics assumes no liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
11. This document may not be reproduced or duplicated, in any form, in whole or in part, without prior written consent of Renesas Electronics.
12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products, or if you have any other inquiries.

(Note 1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its majority-owned subsidiaries.

(Note 2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.
