

MPR7020 - China 中国 Multi-Protocol RFID Reader Module

Gen1, ISO 18000-6C (Gen2) in PCMCIA Type II Package

PCMCIA Type II Form Factor

Serial Interface 3.3V CMOS Levels, 5V tolerant

*Pending certification

Highly Scalable

WJ Communications' MPR7020 RFID multi-protocol reader module is designed specifically for the Chinese market. Operating at the UHF frequency, this product offers OEMs and System Integrators the ability to deliver highly reliable, best-in-class, high performing RFID enabled printers, RFID handhelds and other RFID enabled devices. The MPR7020 reader module supports Class1, Gen1, Class 0, 0+, and ISO 18000-6C(UHF Gen2) international standards and meets the requirements to operate in Gen2 Multiple Reader Environment (MRE) mode.

Superior Performance

WJ's innovative, cost-effective and easy to integrate reader module delivers a full 1 watt of RF power and boasts two antenna ports with the flexibility to customize RFID devices to meet application specific needs. Typical applications for the MPR7020 include Handheld RFID Readers, RFID Enabled Printers, Fork Lift Readers, Portal Readers, and Mobile RFID devices.

Ease of Integration

The MPR7020 is packaged in a PCMCIA Type II PC Card[™] form factor with serial interface, for ease of integration into various RFID devices.

Absolute Maximum Rating*

Parameter	Rating	Units
ESD Protection (per ISO 7816-1)	2	KV
Maximum Operating Voltage	6	V
Operating Case Temperature	-20 to +55	°C
Storage Temperature	-40 to +65	°C

*Operation of this device above any of these parameters may cause permanent damage.

Specifications

Operating Conditions: Vcc = 5.00 VDC, T_{AMB} = 25°C, 50 Ω System.

Symbol	Parameter	Min	Тур	Ma x	Units
<i>f</i> RFID	RF Frequency—UHF Operation	917		922	MHz
fСH	Channel Spacing		500		kHz
СН	Frequency Hopping Channels (See Hop Frequency Channels Table below)		9		Channels
V _{cc}	Supply Voltage @ 1.3A, Connected to System*	4.900	5.00	5.5	V
I _{PEAK OP}	Peak Operating Current		1.1	1.3	А
P _{TX-Max}	Maximum Transmit Power		+29.6	+30	dBm
P _{RANGE}	Power Control Range		12		dB
	Step Size		1		dB
TOPERATING	Operating Temperature Range	-20		+50	°C
Sf	Frequency Stability			±10	ppm

*Measured at connector for 1.3A load.
