# EMC Filters for AC Power Line Conformity to RoHS Directive For Single-phase, Small-size Box Cased ZMG-11, ZMG-M Series

# FEATURES

- The ZMG series EMC filters exhibit outstanding attenuation characteristics with respect to both differential mode and common mode noise components in the MF and HF bands.
- Small, high performance, this series demonstrates superior attenuation effects for low frequency band noise components under 1MHz. It is therefore suitable for conform to FCC and VDE standards relating to switching power supply use devices.
- · Current leakage is maintained at less than 0.5mA.
- · Efficient manufacturing makes these filters highly cost-effective.
- ZMG-M series is compact on-board type.
- It is a product conforming to RoHS directive.

#### APPLICATIONS

Computer terminals, office automation equipment, digital applied devices (ECRs, electronic calculators, electronic scales, etc.), control devices, measurement devices, and any other devices that require a miniaturized filter.
