## AMEM1-EZ

Encapsulated

AMEM1-EZ series is an efficient 1W AC-DC power supply module. Offering a commercial input voltage range of 90-264VAC, output voltage ranges from 3.3-48V, and safer isolation.

This new series offers great operating temperatures, from -25°C to 70°C with full power up to 50°C and features an isolation of 3000VAC for improved reliability and system safety. Furthermore, an output short circuit protection (OSCP), output over-current protection (OCP) and an output over-voltage protection (OVP) come standard with the series.

The AMEM1-EZ is suitable for grid power, LED, instrumentation, industrial controls, communication, and civil applications.
